About us

Castlefield Products have a longstanding and well - established reputation for designing and manufacturing products of exceptional quality and value for money.

We provide innovative 'Engineering Solutions for the Horticulture sectors' through a range of proven and tested handling products for Garden Centres, Nurseries, Farm Shops, Landscapers and Soft fruit harvesting industries.

We have established a unique insight into the needs of our customers, and we would be very happy to discuss working with clients to develop custom built bespoke products for their specific needs.

***Your one stop shop for horticultural
equipment***

During our 50 years' experience, we have been able to establish an excellent reputation for high quality and service excellence; our products are manufactured in the UK and are built to last. If your enquiry is outside of the UK, we are also able to export to various countries worldwide – please contact us to discuss your requirements. Our aim is to continually improve and upgrade our own designs and product range to meet the ever-changing demands of the sector and we also welcome collaborative partner ventures with customers.
